

I am very pleased to provide a character reference for Lorraine Boutin-Gleason who has been a close friend for 10 years.

Drive, a vision and a well designed business plan brought Lorraine to recently create her own personal business - Wired Virtual Business Solutions, this, a reflection of her dedication, skill, adaptability and hard work. I am always amazed at her ability to multi-task and balance her career and her family. She is self assured and calmly handles stress associated with busy times.

Lorraine expresses herself best when dealing with people young and mature. She is enthusiastic, has a very friendly and outgoing personality and has great communication skills. She is exceptionally supportive and through her actions and words, enjoys helping. I have rarely met a friend, over the past 10 years, who I can rely on as much as Lorraine.(... )

Sincerely,

Cindy Switzer
